caffe.net\_spec.Parameters

```
graph BT; Parameters[caffe.net_spec.Parameters] --> object[object];
```

The diagram illustrates a class hierarchy. At the bottom is a grey rectangular box labeled 'caffe.net\_spec.Parameters'. From the top center of this box, two blue curved arrows point upwards to a white rectangular box labeled 'object' at the top. This indicates that 'caffe.net\_spec.Parameters' inherits from or is a specialization of the 'object' class.
