

Message

```
graph BT; A[caffe::LogParameter] --> B[Message];
```

The diagram illustrates a class inheritance relationship. At the top is a white rectangular box with a thin gray border containing the text "Message". Below it is a gray rectangular box with a thick black border containing the text "caffe::LogParameter". Two dark blue arrows originate from the top edge of the "caffe::LogParameter" box and point upwards to the bottom edge of the "Message" box, indicating that "caffe::LogParameter" inherits from "Message".

caffe::LogParameter
