

Message

```
graph BT; A[caffe::PoolingParameter] --> B[Message];
```

A diagram illustrating a relationship between two classes. At the bottom is a gray rectangular box with a black border containing the text "caffe::PoolingParameter". At the top is a white rectangular box with a gray border containing the text "Message". Two dark blue curved arrows originate from the top edge of the "caffe::PoolingParameter" box and point upwards to the bottom edge of the "Message" box, indicating that "caffe::PoolingParameter" inherits from or implements "Message".
